If you use a # hashtag on twitter, it marks the tweet with that topic. They are used for topics. If you make a tweet about birds, you would say #birds.
On the other hand if you want to send a tweet that's to a particular Twitter user or other person in the world, then you use an @ symbol to say the tweet is addressed to that person. I have used it on Facebook if there is a post, and a whole bunch of comments, and I want to respond to one of the comments, but it's not the most recent comment. @ Gabrielle, you have a great personality #flattery

On the off chance that you utilize a # hashtag on twitter, it denotes the tweet with that subject. They are utilized for themes. In the event that you make a tweet about winged animals, you would state #sex.
Then again on the off chance that you need to send a tweet that is to a specific Twitter client or other individual on the planet, at that point you utilize a @ to state the tweet is routed to that individual. I have utilized it on Facebook if there is a post, and an entire cluster of remarks, and I need to react to one of the remarks, however it's not the latest remark. @ Google, you have an extraordinary identity #kabiraa

Do you mean delivered to the recipient (two gray ticks), or delivered to WhatsApp's servers to be delivered to the recipient (one gray tick)?

If you mean the first: the recipient must have an active and working internet connection to be able to receive messages. If (s)he is offline, (s)he won't be able to receive messages.
If you mean the second: you must be connected to the internet to be able to send messages. If you aren't, then they won't send.

Being blocked by someone in wasap
There are a couple of indicators that you may be blocked:

You can no longer see a contact's last seen or online in the chat window. Learn more here.
You do not see updates to a contact's profile photo.
Any messages sent to a contact who has blocked you will always show one check mark (message sent), and never show a second check mark (message delivered).
Any calls you attempt to place will not go through.

If you see all of the indicators above for a contact, this could mean that the user is blocking you. However, there are other possibilities. We have made this intentionally ambiguous in order to protect your privacy when you block someone. Thus, we cannot tell you if you are being blocked by someone else.

About last seen and online
Last seen and online tell you the last time your contacts used WhatsApp, or if they're online.

If a contact is online, they have WhatsApp open in the foreground on their device and are connected to the Internet. However, it doesn't necessarily mean the contact has read your message.

Last seen refers to the last time the contact used WhatsApp. Through our privacy settings, you have the option to control who can see your last seen. Please note you can't hide your online.

There are a few reasons why you might not be able to see a contact's last seen:

They might have set their privacy settings to hide this information.
You might have set your privacy settings to not share your last seen. If you don't share your last seen, you can't see other contacts' last seen.
You might have been blocked.

Configuring your privacy settings
By default, WhatsApp sets your privacy settings to allow:

Any WhatsApp user to see your read receipts, last seen, about and profile photo.
Your contacts to see your status updates.

To change these settings, simply go to WhatsApp > tap More options > Settings > Account > Privacy.

Note:

If you don't share your last seen, you won't be able to see other people's last seen.
There is no way to hide when you are online or typing.
If you turn off read receipts, you won't be able to see read receipts from other people. Read receipts are always sent for group chats.
If a contact has disabled read receipts, you will not be able to see that they have viewed your status update.

NO ENTIENDO.

He oído a Pablo Casado decir algo así como que "no podemos integrar a los que quieren desintegrar España". ¿Significa eso que es partidario de darles la independencia?.

Guillermo Hita Es muy difícil saber lo que quieren decir los políticos. En este caso puede significar que es inútil intentar satisfacer a los eternos insatisfechos.

Manuel Capdevila En Inglaterra tuvieron la suerte que su gran reina Isabel I murió "VIRGEN" y sin heredero, con lo que cogió al heredero de Escocia después de decapitar a su madre y lo convirtió en Jacobo I del UK, cómo se van a separar los escoceses si el rey de England es un rey escocés?

Manuel Capdevila «Para decidir en el asunto de Cataluña», por Azorín. (un buen patriota)

«Para decidir en el asunto de Cataluña se puede leer o no leer, se puede leer mucho o no leer nada. Si no se lee nada, se acepta el resultado de un largo proceso de siete siglos y se da un fallo favorable a Cataluña. Todas las disciplinas: la historia, el derecho, la filosofia de la historia, la historia del derecho, la estética, la etnografía, el folklore, la poesía erudita, la poesía popular, la novela, la sociología, el derecho consuetudinario, la filología; todas las disciplinas, en suma, estudiadas demuestran que Cataluña tiene una vitalidad propia, que Cataluña es una nación. Las teorías que antaño corrían han sido reemplazadas por teorías nuevas. Creíamos conocer el ideario de los catalanistas, y tenemos que estudiar de nuevo sus programas; otras doctrinas están ahora en curso. Los hombres se suceden y las ideas también. Seguir las fluctuaciones de la nación catalana desde la Edad Media hasta el presente es contemplar el más bello panorama. Una historia de siete o más siglos y cuatro centurias de inquietud. De inquietud para Cataluña y de preocupación para el resto de España. No ha habido sosiego para Cataluña ni para el resto de España en ese largo período. Y es hora de que la inquietud y la preocupación terminen. Cataluña tiene derecho a vivir su vida. El resto de España debe, sin más dilación, hacer que Cataluña viva su vida».

(«En su integridad», por Azorín, El Crisol, 19-VIII-1931).

Guillermo Hita Para calmar el fragor dramático... Llamar "tortilla española " a la tortilla española no quiere decir que sea la única tortilla que se hace en España ni que las demás tortillas sean menos españolas. Es un nombre que los estudiosos (de verdad) dirán de dónde viene y los demás lo usamos sin mayor preocupación.

Manuel Capdevila La lengua define a un país o nación.. la tortilla no.. Es una gilipollez llamarle tortilla española en España a la tortilla de patatas.. Como por ejemplo en otros países: a) En Francia a la suya le llaman omelette, no Omelette Française b) La llave inglesa (un invento sueco) en UK es una adjustable spanner.. estoy hasta las narices de cuando digo en USA que soy español me salgan con el flamenco y las sevillanas, con los que no me siento nada identificado

Soy un humilde seguidor (y admirador) de la huella de Don Marcelino me he leído La H de los heterodoxos españoles (que no castellanos) en la que dice que la alquímia medieval tiene Nombre y dos apellidos catalanes..Mirate los comentarios en internet: Sólo pone a catalanes, que ponga a los castellanos pobres ilusos, que se creen que los ocultaba? respecto a la lengua..
