PRORIDER WITH Mini-Hoist BRIG-AYD

Mini Hoist Scooter and wheelchair hoist for mobility devices weighing up to 80kg

Designed to lift scooters and wheelchairs weighing less than 80kg, our Mini Hoist allows you to enjoying greater mobility thanks to its user-friendly operation and clever design. Straightforward to fit, suitable for a wide range of vehicles and easily detachable when not in use, the Mini Hoist makes light work of loading and unloading.

Why choose a wheelchair hoist?

Wheelchairs and scooters give people with limited mobility the chance to get moving in and around the home, but they

can be a burden when it comes to taking them further afield. Installing a hoist in your vehicle means you or a family member can lift them effortlessly into the boot of your car, allowing you the independence to travel and the freedom to work, shop or simply explore beyond your immediate neighbourhood.

Why choose mini hoist?
Even smaller wheelchairs can be a struggle to get into a car, but our versatile Mini Hoist makes light work of loading and unloading thanks to its user-friendly operation and clever, compact design. Straightforward to fit, suitable for a wide range of vehicles and easily detachable when not in use, the Mini Hoist can also be easily removed when it is time to sell your vehicle.

Pro Rider Elite Mobility Scooter
