To switch to Edge as the default browser on Windows, follow the steps below-123:

Go to Start > Settings > Default Apps > Apps > Web Browser.
(Inicio > Configuración > Aplicaciones > Aplicaciones predeterminadas > Explorador web.)
Select the current default browser icon, and from the list, select Microsoft Edge.
In Microsoft Edge, click the three-dot icon and select "Settings."
Select "Default Browser" in the left sidebar and set Edge as the default browser.
