Definition

professional: used for full length Hollywood movies;
professional (small): mainly used for paid commercials, short films or podcasts/YouTube channels;
prosumer: Mainly targeting private use, anything that can do more than just trimming a film;
basic: trimming a film;

System requirements
This table lists the operating systems that different editors can run on without emulation, as well as other system requirements. Note that minimum system requirements are listed; some features (like High Definition support) may be unavailable with these specifications.
