### DNP DS40

The DNP DS40 is a professional and fast digital photo printer that uses a high-resolution dye-sublimation processor to produce photos with high-definition full-color details. With print speeds as fast as 8.9 seconds, depending of the format/size used, and a proprietary roll-fed printing method, the DS40 can print up to 400 10x15 cm (4"x6") prints without needing a media reload.

### Features

Resolution: 300 x 600 dpi

Print Sizes: 4"x6", 5"x7", 6"x8"

Print Speed: 8.9 sec/print (4"x6")

Paper Capacity: 400 sheets/roll (4"x6")

Power: AC100-240V, 50/60 Hz

Weight: 30 lbs (13.61 kg)

Dimensions: 12.6" x 14" x 6.06"

### Design and Functionality

The DS40 features a front-loading ergonomic design and uses a donor ribbon with color dye and a lamination coating to transfer the three primary colors to a high gloss paper roll. A fourth protective lamination layer provides resistance to fading, fingerprints, water, and dust, ensuring the life of the print is extended from years to decades.

### Compatibility

The DS40 is compatible with both Mac and Windows operating systems, making it versatile for various categories of users within the professional photo market.

### Applications

---

The DS40 is ideal for photo kiosks, event photography, and retail photo printing. Its fast print speeds and high-quality output make it a popular choice among photo professionals.

#### Awards and Recognition

The DS40 has won the prominent DIMA award three years in a row, recognizing its value in the photo printing industry.
