Substitution of a Philips LFH 0641 Mercury Battery (6*1.35V= 8.1V) with 2*1080 Li-Ion Batteries (2*3.7V= 7.4V)

625A Px-625A V625U Px13 A625 Lr9 L1560 Battery - Zinc/Air

Product description

WEINCELL (MRB625), REPLACEMENT FOR PX625/PX13 SINGLE BATTERY PACKAGE WeinCells are the only mercury-free, exact-voltage replacements for discontinued 1.35 volt mercury photo batteries. The zinc/air composition of the WeinCell delivers the same precise voltage with steady, constant output identical to that of the mercury batteries (alkaline replacements are generally 1.5 volts, with an unstable output curve; this can result in exposure errors of up to 2 stops).
