Behringer GMX210 Overview

The Behringer GMX210 True Analog Modeling 60W Guitar Amp with (2) 10" Speakers is a powerful amp with 27 classic sound presets. Get vintage tones with Behringer's amp and speaker modeling technologies pumping through the dual 10" Bugera speaker powered by 30W each with a 3 band-EQ. Jam with your favorite bands with CD input or custom tailor sound with the 24-bit stereo multi-effects processor with 99 user presets of your favorite stompbox sounds with MIDI control available. Plug your headphones in quiet practice sessions but hear full, rich sound with speaker simulation.

The GMX210 has 3 amp models including Tweed, British and Californian coupled with 3 gain modes and 3 speaker models for up to 27 classic sounds

Dual 10" Bugera speakers are each powered by 30W

Integrated chromatic tuner can be activated via footswitch

Get high quality 24-bit effects with FXT for independent effects on each channel

Hear every nuance of your performance with the Behringer exclusive Dynamizer circuitry for tube-like compression

Add your own pedals with special pedal insert

Use the FS112 (included) for tuner activation, effect bypass and channel selection
