Product Specifications

About this item

Brand

Canon

Printing Technology

Dye Sublimation

Special Feature

Borderless

Model Name

300

Printer Output

Color

Maximum Print Speed (Color)

5 ppm

Max Printspeed Monochrome

5 ppm

Item Weight

6 Pounds

Print media

Glossy photo paper

Scanner Type

Photo

300 dpi photo-quality color printer
Supports JPEG and JFIF file formats
Accepts Type I and II CompactFlash, PCMCIA-ATA Type II, Video, and S-Video input
Software drivers for Windows 95 and 98 included
Compatible with many digital cameras

Ink Cartridge Configuration

FINE Cartridge - PG-540, CL-541 (Optional - PG-540XL, CL-541XL)

Black Ink Tank Life

Black: 180 pages (PG-540), 600 pages (optional PG-540XL) ¹

Black: 1420 photos* (PG-540), 4340 photos* (optional PG-540XL) ²

* Estimated supplemental yield

Colour Ink Tank Life

Colour: 180 pages (CL-541), 400 pages (optional CL-541XL) ¹

Colour: 67 photos (CL-541), 135 photos (optional CL-541XL) ²

Media Type

Plain Paper, Photo Paper Pro Platinum (PT-101), Photo Paper Plus Glossy II (PP-201), Photo Paper Plus semi-gloss (SG-201), Glossy Photo Paper "Everyday Use" (GP-501), Matte Photo Paper (MP-101)

Media Input

Max. 100 sheets

Media Size

A4, B5, A5, Letter, Legal, Envelopes (DL, COM10), 10 x 15cm, 13 x 18cm, 20 x 25cm

Product Description

Product description

The Canon CD-300 prints your images directly from many models of digital cameras without requiring you to first transfer the data to a computer. Plus, it features high-speed 300 dpi photo-quality resolution. With its moving-film carriage, the CD-300 prints up to 256 shades of cyan, then magenta, followed by yellow, and then it prints a protective ultraviolet layer to prevent image fading. The UV coating also extends the archival status of your prints by protecting them from moisture, fingerprints, and scratches. The CD-300 prints borderless (full bleed) postcard size, 4-by-6, and 4-by-10 panoramas. It uses a dye-sublimation transfer technology that prints with high resolution to produce top-quality prints with the ready convenience of printing in your own studio, fully in control of the results. The CD-300 is automatic and easy to use when working with images from 35mm mounted slide film, strip film, color/monochrome, positives and negatives, and APS IX240 cartridges, and whether or not it is connected to your computer. It also accepts Type I and II CompactFlash, PCMCIA-ATA Type II, video, and S-video inputs. The CD-300 supports JPEG and JFIF file formats. With print speeds of up to 3 minutes per sheet and printing modes of high quality and panorama, you can determine the degree of quality and speed when producing your own photo prints. Easy-to-use controls located on the front of the unit include the power button, control panel, paper cassette inlet, ink cassette door, CF card slot, PC Card slot, and video-in jack, making it simpler to insert or remove memory cards, paper cassettes, and the ink cassette. Each cassette yields up to 36 sheets. The Canon CD-300 is compact, with dimensions just under 10 by 4 by 11 inches, and weighs approximately 6 pounds. --Barbara Price
