DELL INSPIRON ZINO 410 HD WIN

DELL INSPIRON ZINO 410 HD WIN.

This has a 240GB Western Digital SSD green hard drive, the hard drive is new, just used to install the operating system.

Blu-ray tray.

8GB or RAM

Windows 7 professional 64bit

I also have installed the broadcom media enhancer card.

Comes with a new power brick, which has hardly been used.

I also have a 1GB MXM graphics card which is not installed as it needs a cooling fan for the card. I got the fan but cannot get it to fit.
