## Permanent split-capacitor - (PSC) motor - AC Hard Start

Autor:

Data de publicació: 16-08-2019

### Característica:

- 1) alta calidad.
- 2) características estables, alta fiabilidad.
- 3) diseñado para sistemas de compresor del tipo "permanent split-capacitor" (PSC) para motores AC monofásicos.
- 4) contiene relé y condensador de arranque para un par de arranque adicional.
- 5) kit de arranque duro de relé/condensador 500% aumento del par de arranque.
- 6) conectar los dos cables de la SPP6 en paralelo con el condensador (uno de cada lado)

Ac Hard Start

ac hard start capacitor for ac compressor.  
ac hard start kit lowes.LETAOSK SPP6

Hard Start Capacitor (120-288V AC)

Replaces Supco hard start relay for 1/2HP-10HP engines  
Increases starting torque 200% -500%

Characteristics:

- 1) High quality.
- 2) Stable characteristics, high reliability.
- 3) Designed for compressor systems of the type "permanent split-capacitor" (PSC) for single-phase AC motors.
- 4) Contains relay and starting capacitor for additional starting torque.
- 5) 500% relay/condenser hard starter kit increased starting torque.
- 6) connect the two cables of the SPP6 in parallel with the RUN capacitor (one on each side)
